

Fleet Status Report

November 5, 2025

This Fleet Status Report ("Report") includes forward-looking statements within the meaning of U.S. federal securities laws. All statements other than statements of historical facts included in this Report, including, without limitation, those regarding Seadrill Limited's (the "Company") plans, business prospects, financial performance, operations and rig activity, including with respect to contract awards, values, commencements, durations, extensions and options and planned out-of-service times, are forward-looking statements. These forward-looking statements are based on management's current plans, expectations, assumptions and beliefs concerning future events impacting the Company and therefore involve a number of risks, uncertainties and assumptions that could cause actual results to differ materially from those expressed or implied in the forward-looking statements.

Important factors that could cause actual results to differ materially from those in the forward-looking statements include, but are not limited to: those described under Part I, Item 1A, "Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2024, filed with the U.S. Securities and Exchange Commission (the "SEC") on February 27, 2025, offshore drilling market conditions including supply and demand, dayrates, fluctuations in the price of oil, international financial market conditions, changes in governmental regulations that affect the Company or the operations of the Company's fleet, the review of competition authorities, and other important factors described from time to time in the reports filed or furnished by us with the SEC. The foregoing risks and uncertainties are inherently subject to significant business, economic, competitive, regulatory and other risks and uncertainties, many of which are difficult to predict and beyond our control. In many cases, we cannot predict the risks and uncertainties that could cause our actual results to differ materially from those indicated by the forward-looking statements. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those indicated.

All subsequent written and oral forward-looking statements attributable to us or to any person(s) acting on our behalf are expressly qualified in their entirety by reference to these risks and uncertainties. You should not place undue reliance on forward-looking statements. Each forward-looking statement speaks only as of the date of the particular statement. We expressly disclaim any obligations or undertaking to release publicly any updates or revisions to any forward-looking statement to reflect any change in our expectations or beliefs with regard to the statement or any change in events, conditions or circumstances on which any forward-looking statement is based, except as required by law.

Investors should note that we announce material financial information in SEC filings, press releases and public conference calls. Based on guidance from the SEC, we may use the Investors section of our website (www.seadrill.com) to communicate with investors. It is possible that the financial and other information posted there could be deemed to be material information. The information on our website is not part of, and is not incorporated into, this Report.

Contract Coverage

Ordered by contract completion
